

ORI FRIESEN

MATHEMATICIAN

(971) 302-8946

OFRIESEN@MACALESTER.EDU

SAINT PAUL, MINNESOTA

WWW.ORIFRIESEN.COM

EDUCATION

Expected May 2025

B.A. in Mathematics (Honors),
Computer Science Minor, Geospatial Science Minor
Macalester College, Saint Paul, MN
Overall GPA: 3.95

RELEVANT COURSEWORK

Projects in Analysis	Graph Theory	Calculus IV (Portland State)
Computational Linear Algebra	Algebraic Structures	Algorithm Design and Analysis
Real Analysis	Linear Algebra	Data Structures
Topology	Discrete Mathematics (Portland State)	Data Visualization
Partial Differential Equations		

RESEARCH

August 2024 – Present	Honors Independent Research at Macalester Research in Functional Analysis Understanding Hölder-continuity of the Brascamp-Lieb constant
March 2023 – Present	Independent Research at Macalester Research in Topological Data Analysis Using the topological data analysis method of Persistent Homology as a tool to analyze segregation patterns across over 100 United States cities.
June 2024 – August 2024	Research Assistant at Iowa State University Math REU Research in Spectral Graph Theory Conducted research under the mentorship of Dr. Kate Lorenzen on spectral graph theory, focusing on graphs that are cospectral with respect to the exponential distance matrix.
January 2023 – August 2023	Traffic Analyst Fellow at ReConnect Rondo Through the Chuck Green Fellowship at Macalester College Designed and produced an emission estimation traffic study using EPA-regulated guidelines and software to provide understanding of existing conditions for the use of future development.

TEACHING

Fall 2024	TA and Grader Graph Theory
Spring 2024	TA and Grader Algebraic Structures

Fall 2023

TA and Grader

Linear Algebra

TALKS

April 2024

Midwestern Undergraduate Geography Symposium

Paper Presentation Session 3C – Urban Geography

“On the Path to Knowledge: Exploring aspects of transportation and accessibility to the Hayden Heights Public Library”

January 2024

Joint Mathematics Meetings

AMS – PME Undergraduate Student Poster Session, I

“Using Persistent Homology to Study the Shape of Racial Segregation in United States Cities”

LEADERSHIP

September 2023 – Present

Student Advisory Board Member

Department of Mathematics, Statistics, & Computer Science, Macalester College

Bridging the gap between students and professors and facilitating inclusion in the MSCS department through a multitude of initiatives and activities.

HONORS AND CERTIFICATIONS

Expected May 2025

Honors in Mathematics

Macalester College

June 2024

Outstanding Student Representative

Minnesota GIS/LIS Consortium

Inducted May 2024

Gamma Theta Upsilon (International Geographical Honors Society)

Epsilon Kappa Chapter

Issued August 2022

6.86x: Machine Learning with Python – From Linear Models to Deep Learning

MITx MicroMasters Programs

Issued August 2023

6.431x: Probability – The Science of Uncertainty and Data

MITx MicroMasters Programs

January 2023 – August 2023

2023 Chuck Green Fellow

Department of Political Science, Macalester College
